

LANDSCAPER

**REIST**  
INDUSTRIES

MANUFACTURED IN CANADA

# YOUR VISION. ONE MACHINE.

## ONE TOOL. ENDLESS POSSIBILITIES.

Transform the way you work with the Reist Landscaper. A masterfully engineered, all-in-one solution that replaces the need for multiple machines. Acting as a clod-breaker, pulverizer and along with options it can be a harrow, box grader, ripper, and grass seeder. The Landscaper brings unmatched efficiency and versatility to your site.

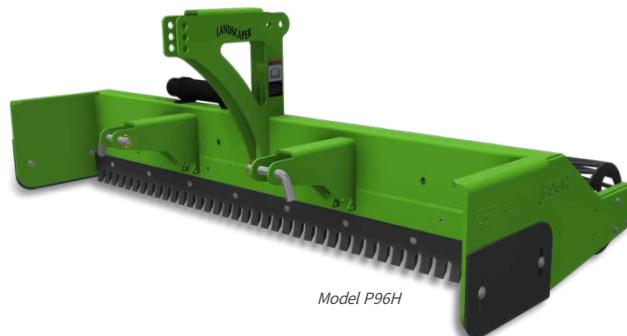

Whether you're sculpting fairways for championship golf courses, preparing commercial lots for development, enhancing municipal parks, or reconditioning construction zones, the Reist Landscaper is built to meet the demands of earthscaping professionals and precision-grade contractors alike.

This powerhouse machine doesn't just prep the ground—it redefines it. From breaking through compacted soil and smoothing rough terrain to evenly distributing seed for lush green results, the Landscaper is designed to finish entire sites with a clean, professional touch.

No matter the scale or complexity of your project, the Reist Landscaper delivers consistent, high-quality results—bringing raw ground to finished landscape with remarkable speed and accuracy.

Model P84

Model P96H

# FEATURES

## REAR PULVERIZING ROLLER

The pulverizing roller follows the terrain, while a single adjustment of the top link lets you control blade depth for a level grade. It also packs and finishes material, leaving a perfectly prepared seed bed.

## SERRATED HEAT-TREATED GRADER BLADE

For a consistent leveling depth of material, the serrated cutting edge skims along the surface to prep for seed.

## ADJUSTABLE SIDE WEAR PLATES

Protect the sides of your equipment from excessive wear during operation. They can be raised or lowered to match varying ground conditions or compensate for wear over time

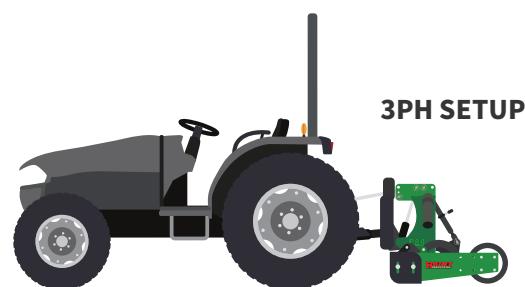

## LOWER LINK FLOATING

The Landscaper utilizes lower link floating to effectively create a level surface. In this setup the Landscaper travels on its rear roller while being pulled by the lower points of the 3PH. With the roller serving as the only contact point the upper link of the 3PH can be adjusted in or out to control the cutting edge depth.

Similar in principle, the blade depth on skid steer applications is controlled by the bucket cylinders once the loader arms have positioned the roller with the majority of its weight on the ground.

This ensures the Landscaper isn't lifted off the ground and cuts a level path when working on uneven terrains.

Scan here to see how it works.

**SKIDSTEER SETUP**

# MOUNTING Options

## SWIVEL HITCH (AVAILABLE FOR CAT I & II)

- Turns 22 degrees each way
- Unique self-straightening feature when 3PH is raised
- Lock pin for hard surfaces
- Hitch extensions required

## HYDRAULIC TOP LINK CYLINDER

- Top link grading control
- 8" stroke CAT I
- 10" or 14" stroke CAT II

## HITCH ADAPTER, SKID STEER (PUSH AND PULL)

- Hitch adapter to attach to skid steer
- Ability to push and pull

## 6" HITCH EXTENSIONS

- Extension for more clearance between the tractor and Landscaper

## HITCH ADAPTER, SKID STEER (PULL ONLY)

- Hitch adapter to attach to skid steer
- Pull only

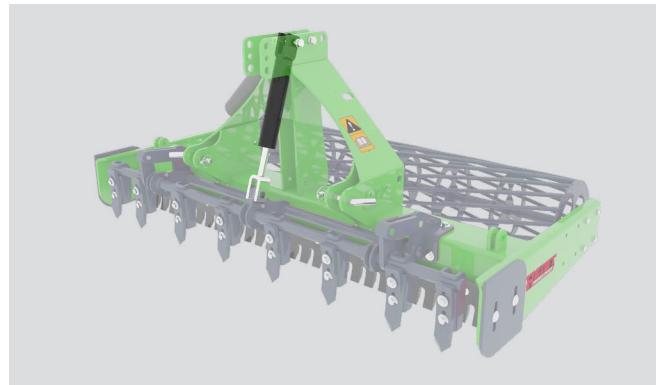

## HITCH ADAPTER, HYDRAULIC TILTING

- Hitch adapter to attach to skid steer, with hydraulic
- Controls for tilts
- Ability to push and pull

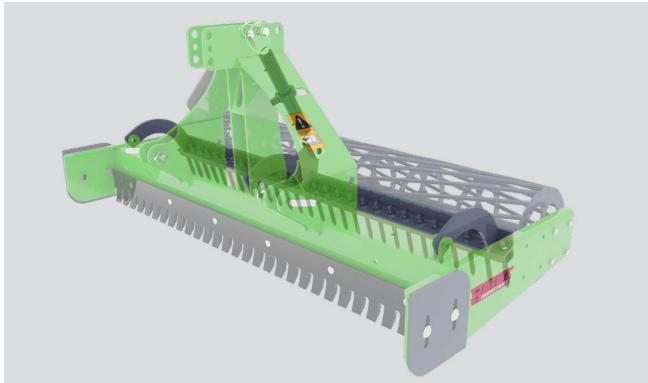

### RIPPER (AVAILABLE FOR CAT I & II)

- 1/2" thick x 2" wide bolt-on ripper teeth
- High-strength, stress-proof ripper bar
- Manual adjustment from 0 to 5"

### RIPPER CYLINDER

- Replaces manual ratchet jack to control ripper
- Adjust tooth depth hydraulically

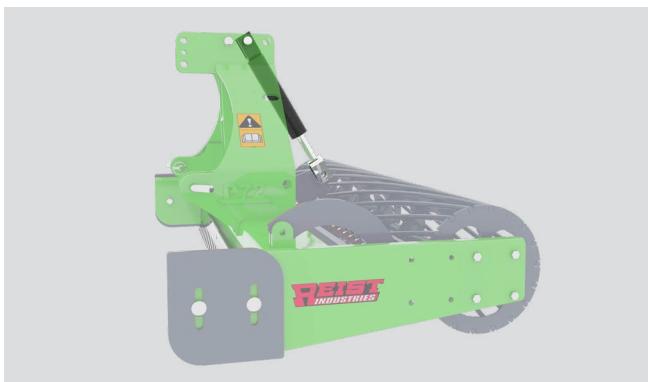

### HARROW (AVAILABLE FOR CAT I & II)

- Hardened 5/8" square teeth spaced at 2 1/2"
- Removes trash on surface
- Creates a seed bed
- Mixes grass seed into soil when used with seeder attachment

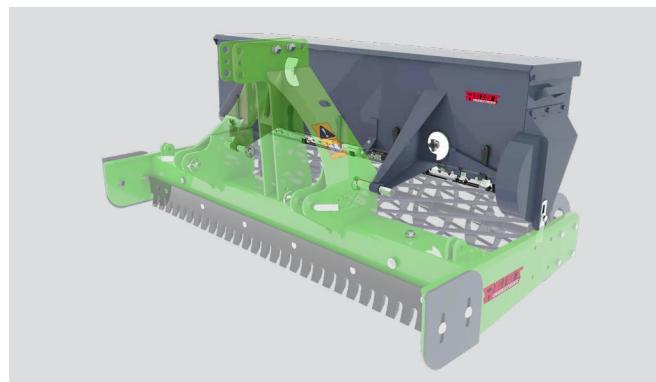

### SPIKED ROLLING HARROW

- Ideal for prepping seed beds
- Manual ratched jack adjustment

### HARROW CYLINDER

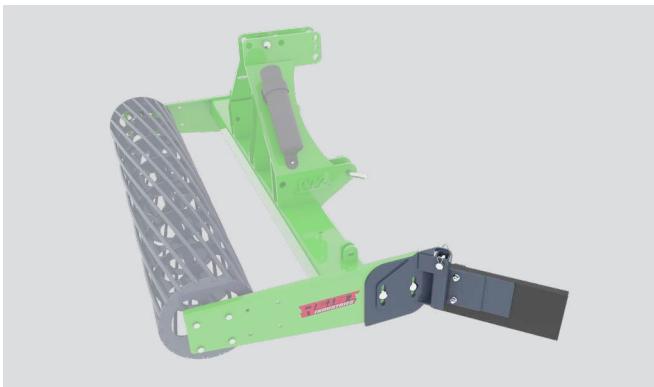

- Replaces manual ratchet jack to control tooth depth of the harrow hydraulically

### GRASS SEEDER

- Quick attach two-pin mounting system
- Seed rate adjustment with indicator
- Hydraulic-controlled seed opener or optional Manual

## FINISHING Options

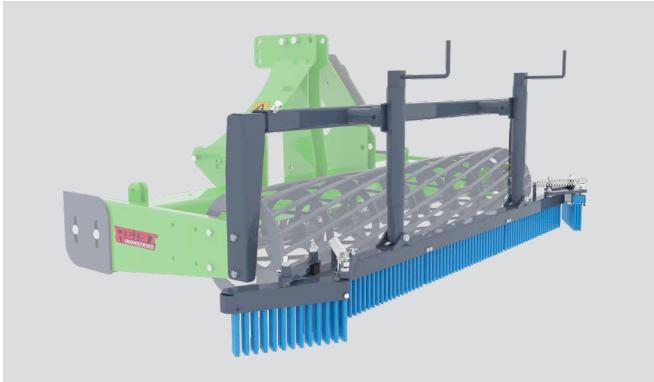

### BOARD SCRAPER

- Get a nice finish from your machine even close to boards of arenas with the board scraper attachment
- Thick rubber to not damage boards

### SMOOTH ROLLER

- Smooth flat finish on soil, sand or synthetic

### REAR BRUSH (AVAILABLE FOR CAT I & II)

- Brushed finish on walking trails
- Break-away wings to smooth out side ridges
- Adjustable brush depth with two top wind jacks

### ALL IN ONE SEED PREP

When equipped with the seeder option, the Landscaper becomes your all in one solution for initial seeding.

The seed box sits above the rear roller, when lowered a cog wheel engages with the roller bars to turn the agitator within the box and deliver seed consistently.

Seed flow is turned on and off hydraulically or with an optional manual lever.

# SPECIFICATIONS

Landscaper CAT I - Specs.	P48	P60	P72	P84	P96
Dimensions (WLH)	49 X 38 X 33"	61 X 38 X 33"	73 X 38 X 33"	85 X 38 X 33"	97 X 38 X 33"
Working Width	48"	60"	72"	84"	96"
HP Req.	20-30	25-40	30-50	30-60	30-75
Hitch	CAT I				
Weight (lbs)	350	570	701	745	833
Weight w/ Harrow (lbs)	400	631	784	835	937
Weight w/ Harrow & Ripper (lbs)	525	774	954	1,005	1,170
Weight w/ Seeder Attach. (lbs)	460	690	750	945	1,500

Landscaper CAT II - Specs.	P96H
Dimensions (WLH)	99 X 46 X 34"
Working Width	96"
HP Req.	70-120
Hitch	CAT II
Weight (lbs)	945
Weight w/ Harrow (lbs)	1,060
Weight w/ Harrow & Ripper (lbs)	1,260

The RotoRake's (Hyd) bi-directional rotor allows for operation in both directions. Features a 25 degree angle and 28 degree tilt for easy swaling and ditching. Oscillating gauge wheels can be locked in level position. Dual-motor design delivers 40% more torque and eliminates outside bearings and chains.

## Aera Seeder

The AeraSeeder is designed for anyone who needs reliable results—fast. Whether you're a professional groundskeeper or managing a rental fleet, the AeraSeeder is key to efficient seeding or overseeding over a variety of turf.
