

TREE PULLER

**REIST**  
**INDUSTRIES**

MANUFACTURED IN CANADA

*Model TRP2814 (Shown with optional guard & guard insert)*

### **EXTRA GRIP WHEN YOU NEED IT.**

Featuring a 28 inch single pivoting jaw capable of opening up to 14 inches wide, the TRP2814 is a versatile tool for arborists, farmers, landscapers, and anyone looking to remove brush and trees. The open plate design offers superior operator visibility, while the guard frame keeps branches safely away from the cab. It's the perfect combination of quality, affordability and functionality.

Serrated teeth make for a strong hold and quick work of stumps, roots, and entire trees while allowing for the operator to shake out excess dirt for refilling holes.

For more information contact Reist Industries.

*Production model shown (TRP2814)*

### **SERRATED TEETH**

The aggressive teeth grip trees and shrubs firmly.

### **PIVOTING JAW**

To ensure maximum clamping power one side of the jaw is fixed.

### **HYDRAULIC CLAMPING**

The hydraulics provide up to 21,000 lbs of clamping force at 3,000 PSI.

### **HOSE WRAP**

A protective wrap keeps your hoses safe when grappling.

## **OPTIONS**

### **GUARD (TRPGF)**

An optional bolt on guard frame provides protection for your power unit as well as helps manage the load.

### **GUARD INSERT (TRPGR)**

The guard insert option adds additional protection reducing the amount of poke through from branches.

*Requires optional Guard.*

# SPECIFICATIONS

Model TRP2814 (Shown with optional guard & guard insert)

|   |            |
|---|------------|
| Tree Puller                             | TRP2814    |
| Max Jaw Opening (inches)                | 14         |
